Recommended Classification of Revenues for GASB 34
Last updated: October 2008

Revenue Accounts

- 1000 - Local Sources
- 2000 - County Sources
- 3000 - State Sources
- 4000 - Federal Sources
- 5000 - Other Financing Sources
- 6000 - Adjustments to Beginning to Fund Balance

GASB #34 considers revenue to be either **PROGRAM** or **GENERAL** for the purpose of preparing the Government-wide Statement of Activities.

There are two types of program revenues:

1. Charges for Services – fees and other charges to the users or recipients of the services the district provides, such as food service sales and reimbursements, rental fees for school facilities or buses, athletic or spectator fees, tuition or library fines.
2. Grants and Contributions – funds received by the district that are restricted for a particular purpose, such as title programs, special education, transportation and food and nutrition aid. Grants and Contributions are further separated into columns for:
 - Operating – to finance the district’s annual operating activities, and
 - Capital – to fund the acquisition, construction, or renovation of capital assets.

General revenue is all revenue not required to be reported as program revenue.
